HOOP5

OUR
SERVICES

Hoop5 provides a full range of managed IT services, products and solutions to companies throughout the Western U.S. From remote or onsite IT support, cybersecurity, or cloud services, Hoop5 has a personal and dedicated team to solve your IT needs.

WWW.HOOP5.NET

MANAGED IT

With guaranteed onsite and remote response times, you can have a team of highly skilled network engineers and computer technicians service your business computers at a fraction of the cost of a full-time employee.

CYBERSECURITY

From day to day management and 24x7 monitoring, to assessments and audits, we work to acheive the security policies and regulatory compliance needs of your business.

CLOUD SOLUTIONS

Whether you need to deploy a single app or migrate your entire production environment, our team has the experience and resources to ensure a seamless cloud transition.

CO-MANAGED IT

Our co-managed IT services combine your existing in-house IT team with Hoop5 professionals to create a single comprehensive and effective IT operation.

IT STRATEGY

To align IT with corporate goals, we work with all levels of your business to understand operational challenges and requirements.

WHY HOOP5?

Here at Hoop5, we still believe in good old-fashioned customer service. For us, it's not just about technical ability; it's about understanding your environment, understanding your business and understanding you.
